Technical Skills

Languages & Databases: Python, C++, JavaScript
Framework & Libraries: HTML, CSS
Backend Technologies: Node.js, Express.js, REST API
Databases: MongoDB, Mongoose
Other Skills: Data Structures & Algorithms, OOP, API Development, Git/GitHub, Postman, VS Code

Projects

Planora — AI-Powered Trip Planner (Full Stack)
Tech Stack: JavaScript, Node.js, Express, MongoDB, HTML, CSS

- Built a complete trip planning web application with places, recommendations, budgeting, scheduling, and activities modules.
- Designed RESTful APIs using Node.js & Express with clean service-based architecture.
- Implemented JWT-based authentication, role-based access, and input validation middleware.
- Integrated third-party services for maps, geolocation, and AI-based recommendations.

Developer Portfolio Website
Tech Stack: *HTML, CSS, JavaScript*

- Designed and developed a personal portfolio website to showcase projects, technical skills, and achievements.
- Implemented a clean, responsive UI focused on clarity, usability, and recruiter-friendly presentation.
- Structured content to highlight projects, technical skills, and GitHub links effectively.

Personal Projects/Awards & Achievements

- Solved **150+ DSA problems on LeetCode**, demonstrating consistent problem-solving practice and algorithmic thinking.
- Participated in a **college-level hackathon**, gaining hands-on experience in rapid development, teamwork, and problem-solving.

Education

Institute Of Engineering and Management, Newtown **July 2024 – June 2028**
Bachelor of Technology in Computer Science and Engineering (AI/ML) *Kolkata, WestBengal*

Certifications

- *Python Data Structures – University of Michigan (Coursera, 2025)*
- *TCS Ion Career Edge – Young Professional*
